WHAT IS SAFEGUARDING?

'Safeguarding means protecting an individual's right to live in safety, free from abuse and neglect. It is about people and organisations working together to prevent and stop both the risks and experience of abuse or neglect, while at the same time making sure that the individual's wellbeing is promoted including, where appropriate, having regard to their views, wishes, feelings and beliefs in deciding on any action. This must recognise that individuals sometimes have complex interpersonal relationships and may be ambivalent, unclear or unrealistic about their personal circumstances.'
